Confidence has a ripple effect. It starts from within and is built piece by piece until you’re ready to hit the water running. With over five decades of marine heritage and a commitment to innovation, Yamaha is the brand consumers turn to when they want to maximize their enjoyment on the water. Legendary Yamaha Marine Engines boast unmatched reliability, raising the bar for the entire industry with the pull of a throttle. And with innovations like RIDE® and the all-new Multi-Mount System, Yamaha owners do what others can’t. Assembled right here in the United States, Yamaha WaveRunner personal watercraft aren’t just built to take you along for the ride; Yamaha WaveRunners Run the Water.
RiDE WITH CONFIDENCE

The personal watercraft industry was changed forever when Yamaha introduced the revolutionary RiDE technology. The world’s first dual-throttle handlebar control system gives WaveRunner® owners a whole new level of control, especially at low speeds for effortless docking and easy maneuvering in tight spots. Here’s how it works. Pull the right handle lever and you accelerate, pull the left lever and you go in reverse. Pull them both, or in any combination, and the system recognizes your intentions and provides precise control at all speeds. Release both levers and you will neutral. There are no gears, no manual shifting and no complicated process, providing the rider with a more intuitive and fun driving experience.

ENGINEERED FOR ENDLESS FUN

Yamaha Marine Engines are built to withstand the harshest marine elements. With over fifty years of marine heritage and meticulous quality control requirements, Yamaha is miles ahead of the competition. So, when it comes to getting the most out of your time on the water, you can always depend on a Yamaha.

SALTWATER RUNS IN OUR VEINS

Yamaha WaveRunners are designed for endless fun in saltwater environments. Yamaha’s open loop cooling system is the most effective, reliable and maintenance-free way to cool your engine. And with state-of-the-art hull and deck technology, WaveRunners provide the most durable and lightweight experience on the market.
This year, Yamaha owners can customize their WaveRunner with new Sport Activity Packages. Both the Garmin® Fish Finder and audio kits elevate the WaveRunner experience with quality technology and audio options never before seen in personal watercraft. Now riders have the option to add a new soundtrack to their summer or find the next fishing spot before everyone else.
LUXURY REDEFINED

The completely redesigned FX Series features an industry-first touchscreen that places all of the vital display functions at your fingertips, as well as the ability to add a variety of accessories to help riders stay connected with our new Multi-Mount System. Our luxury flagship series is perfect for those who desire an unrivaled experience on the water.

ENTRY LEVEL GETS A POWERFUL NEW ADDITION

Introducing an all-new entry level WaveRunner featuring high-performance features for those who like to go fast. Thrill-seekers can now harness the excitement and power of the seriously nimble all-new EXR. The High Output TR-1® Yamaha Marine Engine provides 10% more power, while an extremely lightweight NanoXcel® 2 hull and deck provide a higher level of performance and overall fun.

WELCOME TO THE WINNER’S CIRCLE

New in 2019, both the VXR® and GP® 1800R feature a race-inspired top-loader intake grate and a ride plate that have been tested by professional racers on a closed course, for sharper and more predictable handling with better hook-up in rough water.
2019 LINEUP

Yamaha’s 2019 lineup of WaveRunners offers a unique experience for every kind of rider. Whether you’re venturing out on your first ride or taking a victory lap, there’s a WaveRunner that’s perfect for you.
Enjoy the excitement of owning a WaveRunner from the very start. The EX Series combines the power and dependability of the award-winning 3-cylinder TR-1 Yamaha Marine Engine with a durable, lightweight hull and deck, allowing first-time riders to take on the open water with confidence. With a new optional audio package, EX owners can add the perfect soundtrack to every ride. And thanks to excellent fuel-efficiency and low maintenance requirements, the EX Series provides a fun, agile ride that holds up year after year.

**HIGH PERFORMANCE MEETS ENTRY LEVEL**

Experience the nimble fun of the EX Series with even more power thanks to the all-new EXR. For the first time ever, riders can enjoy the power of the TR-1 High Output Yamaha Marine Engine in the rec-lite category. The extremely durable and ultra-lightweight NanoXcel 2 hull and deck add a greater level of responsiveness and performance. The EXR possesses the soul of a sports car, providing an exhilarating ride on the water.

Easy Engine Access

NanoXcel 2
With technology and design lifted from our luxury lineup of WaveRunners, the feature-rich VX Series provides exceptional value along with premium Yamaha quality. Featuring RiDE, the intuitive dual-throttle handbar control system, the powerful TR-1 High Output Yamaha Marine Engine, ample storage options and a sleek, roomy design, the mid-range VX lineup boasts the ability to make the most of your time on the water. Plus, the all new VX audio package gives VX owners even more power to personalize the ride.

THE PERFECT VALUE FOR THE ENTIRE FAMILY

The VX Series blends technology, performance and affordability in a flawless package. With a tow hook for tubing and other watersports, a convenient reboarding step, class-leading 24.6 gallons of storage space and a Limited Tow Package that comes with everything you need for family fun, the value-packed VX Series has all the features needed for a full day of action.

The completely new 2019 lineup of FX WaveRunners redefines what’s possible on a luxury personal watercraft. Experience a new level of sophistication with an industry-first integrated Connext® touchscreen. Stay glued to the water with a redesigned hull that keeps drivers and passengers perfectly stable, no matter the conditions. Customize the ride with a Multi-Mount System for attaching a variety of accessories. And enjoy the thoughtfully designed self-draining footwells for added convenience. Backed by the power of Yamaha’s most advanced Marine Engines, the FX Series revolutionizes the WaveRunner experience for customers who want the best of the best.

CONTROL AT YOUR FINGERTIPS
Yamaha’s industry-first Connext touchscreen on a personal watercraft provides a suite of innovative functions like Drive Control for customizing rider settings and a built-in Security Mode to prevent unauthorized use. Connext also provides vital display functions, WaveRunner diagnostics and customizable settings.

ACCESSORIZE THE RIDE
Yamaha’s innovative Multi-Mount System allows FX owners to attach a variety of accessories including Bluetooth® speakers, Garmin® GPS Fish Finders, cameras and more. Riders can easily swap out accessories without bulky hardware, making each adventure a unique experience. Every FX WaveRunner is Multi-Mount capable, while the FX Limited comes with 2 ECOXGEAR® Waterproof Wireless Bluetooth® Speakers and a Garmin® Striker™ GPS Fish Finder with Transducer and RAM® Mount Hardware.

Whether you’re competing for bragging rights with friends or points on the pro circuit, the 2019 Performance Race Series is the superior choice for those who want to win. With a new race-inspired top loader intake grate and a ride plate, the legendary GP1800R and the incredibly agile VXR provide increased handling during sharp turns and incredibly impressive hook-up in rough water. And those with an appetite for thrills can enjoy conquering the closed course with the SuperJet. Enjoy the number one choice for championship riders and racing enthusiasts and let everyone else try to keep up.

Yamaha’s legendary Marine Engines aren’t just known for their reliability—they’re known for their incredible power as well. Yamaha’s high-performance Marine Engines dominate other brands’ race models on and off the closed course. No wonder so many pros depend on Yamaha to carry them to a first-place finish.

---

**Performance note on closed course:**
YAMAHA SINGLE RIDER TUBE KIT
Kit includes a 54" diameter deck tube, a portable 12-volt pump, and a color-matched 16-strand tube tow rope.

YAMAHA NEOPRENE RIDE SHORTS
Shorts are made from 2mm neoprene with flat-lock stitching. Features super stretch side panels and drawstring waist for comfort and flexibility. Mens, womens and youth sizes available.

YAMAHA LIFE JACKETS
Various styles and colors available. U.S. Coast Guard approved and UL listed.

YAMAHA DOCK LINES
These Yamaha Dock Lines are made of multi-filament, solid-braid polypropylene. Floats if accidentally dropped in water and resists saltwater, oil, gas, UV rays and mildew. Available in an assortment of colors and lengths.

YAMALUBE 4W FOUR STROKE OIL FOR WATERCRAFT
Specifically formulated for the needs of high-revving four-stroke Yamaha WaveRunner engines. Provides the anti-corrosion and anti-wear performance needed in a harsh marine environment.

YAMAHA WAVERUNNER COVERS
Yamaha’s WaveRunner covers are designed to help protect your watercraft’s appearance. Each cover features superior construction and materials to help provide long life as well as a custom fit.

PWC CONTOUR FENDER
Engineered specifically for PWCs, the hinged center better protects PWC bodies from docks designed for bigger boats. Two fenders recommended per PWC (sold individually).

YAMAHA INFLATABLE FLOATING COOLER
Keeps 12 cans or bottles ice cold for hours. A molded plastic rope is sewn to the nylon cover for tying up to your WaveRunner.

There is only one WaveRunner. And when it’s time for scheduled service, maintenance and repairs, demand only Yamaha Genuine Parts and Accessories. Whether you’re having fun on a WaveRunner, hanging out on an inflatable or changing your own oil, shopyamaha.com to keep your fun going all season long.
